

SIVAPRASATH SS

Application Developer - Full Stack Developer (MERN Stack and Laravel)

+91 7548814113 | sivaprasath.dev@gmail.com | Coimbatore, Tamil Nadu, India

LinkedIn: linkedin.com/in/sivaprasath-s-s | Portfolio: sp-p-lac.vercel.app

Professional Summary

Application Developer with 2 years of experience designing, developing, and deploying scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB, MySQL, and PHP with Laravel framework. Strong expertise in building secure RESTful APIs, real-time applications, e-commerce platforms, and multi-level referral systems. Hands-on experience with Docker containerization, CI/CD pipelines, Git version control, and database performance optimization. Proficient in JavaScript ES6, HTML5, CSS3, and Bootstrap for responsive front-end development. Strong problem-solving, debugging, and collaboration skills with proven ability to deliver production-ready solutions in Agile Scrum environments.

Technical Skills

Programming Languages: JavaScript (ES6+), PHP, SQL, HTML5, CSS3

Frontend Technologies: React.js, Bootstrap, Responsive Web Design, Single Page Applications (SPA)

Backend Technologies: Node.js, Express.js, Laravel (PHP), RESTful API Development, MVC Architecture

Databases: MySQL, MongoDB, Database Design, Query Optimization

DevOps and Tools: Docker, CI/CD Pipelines, Git, GitHub, Version Control, Application Deployment, Postman, VS Code

Core Competencies: Full Stack Development, Software Development Life Cycle (SDLC), Agile Methodology, Scrum, Code Review, Debugging, Performance Optimization, Problem Solving, Team Collaboration

Professional Experience

Application Developer - Nandha Infotech

Coimbatore, India | June 2024 - Present

- Developed and deployed scalable full-stack web applications using React.js, Node.js, Express.js, and Laravel, improving system performance and maintainability by approximately 30 percent.
- Designed and implemented a multi-level referral and commission management system, optimizing commission processing logic and improving transaction efficiency across user onboarding workflows.
- Built and optimized e-commerce application modules including product catalog, shopping cart, and order management, improving product operation efficiency by approximately 25 percent.
- Integrated third-party external REST APIs to deliver real-time data processing features, accelerating application response time and enhancing end-user experience.
- Engineered an inventory management system with Role-Based Access Control (RBAC), strengthening data accuracy, application security, and operational efficiency.
- Designed, developed, and consumed secure RESTful APIs to enable scalable and consistent backend communication across multiple web applications and services.
- Containerized application services using Docker and configured CI/CD pipelines for automated build and deployment, reducing deployment time and ensuring consistent production environments.
- Collaborated with cross-functional teams in Agile Scrum sprints to deliver production-ready features, perform code reviews, and resolve critical development issues.

Key Projects

- Referral and Commission Management Platform:** Built a full-stack referral engine using React.js, Node.js, Express.js, and MongoDB, supporting multi-level referral hierarchies and automated commission tracking for user acquisition workflows.
- E-Commerce Web Application:** Developed a complete e-commerce storefront using PHP Laravel framework and MySQL database, with product management, cart workflows, order processing, and secure payment gateway API integration.
- Real-Time Inventory Management System:** Engineered an inventory module using Node.js, Express.js, REST APIs, and RBAC-enabled dashboards to improve stock tracking accuracy and reduce manual operational effort.
- Personal Portfolio Website:** Designed and deployed a responsive single-page application using React.js, HTML5, CSS3, and Bootstrap, hosted on Vercel, demonstrating front-end development, UI design, and performance optimization skills.

Education

Master of Computer Applications (MCA) - Dr. Mahalingam College of Engineering and Technology - 2022 - 2024 - CGPA / Percentage: 76%

Bachelor of Computer Science (B.Sc. Computer Science) - Sri Krishna College of Arts and Science - 2019 - 2022 - CGPA / Percentage: 76%

Certifications

- AWS Academy Graduate - AWS Academy Cloud Foundations
- Software Developer Internship Completion Certificate - Nandha Infotech
- HackerRank Certification - Python Programming

Additional Information

Excellent problem-solving, debugging, and analytical skills. Passionate about clean, maintainable code and user-focused web applications. open to relocate
