WORK EXPERIENCE

Application Developer

Nandha Infotech | June 2024 – Present

- Developed scalable full-stack applications using React.js, Node.js, and Laravel, improving system performance and maintainability by ~30%.
- Designed and implemented multi-level referral systems, optimizing commission processing and improving transaction efficiency.
- Built and optimized e-commerce functionalities including product catalog, cart, and order management systems, reducing manual operations by ~25%.
- Developed real-time applications by integrating external APIs, improving data processing speed and enhancing user experience.
- Engineered inventory management systems with role-based access control (RBAC), improving data accuracy and operational efficiency.
- Designed and consumed RESTful APIs to enable secure and scalable backend communication across applications.
- Containerized applications using Docker and implemented CI/CD pipelines, reducing deployment time and ensuring consistent environments.
- Collaborated with cross-functional teams in Agile/Scrum environments to deliver production-ready solutions.
